FROM MOUNT DIABLO.

Professor Davidson, Chief of the United States Coast Survey, in charge of the triangulation observations now being conducted, furnishes the following items of interest respecting the altitude and distances of the most prominent points visible from the summit of Mount Diablo, where he encamped with his corps, directing the signal observations:

Clay street hill, San Francisco, has an altitude of 387 feet above the ocean level, and is distant 32 miles.

South Farralone Island, 350 feet altitude, distance 63 miles.

North Farralone, 200 feet altitude, distance 66 miles.

The sea horizon is distant 83 miles.

Mt. St. Helena, 4,343 feet altitude, distant 68 miles.

Mt. Tamal Pais, 2,604 feet altitude, distant 38 miles.

Snow Mountain, southeast angle of Mendocino county, 7,000 feet altitude, distant 144 miles.

Mt. Monticello, west of Cottonwood, 3,630 feet altitude, distant 57 miles.

Mt. Vaca, west of Vacaville, 2,340 feet altitude, distant 35 miles.

State Capitol, Sacramento, distant 35 miles.

Marysville Butte, 2,030 feet altitude, distant 92 miles.

Lassen's Peak, 10,650 feet altitude, distant 183 miles.

Downieville Buttes, 8,720 feet altitude, distant 127 miles.

Lola Mt., near Truckee, 9,280 feet altitude, distant 138 miles.

Pine Hill, near Folsom, 2,140 feet altitude, distant 120 miles.

Pyramid Mt., 10,290 feet altitude, distant 144 miles.

Round Top, overlooking Placerville, 10,650 feet altitude, distant 120 miles.

Stanislaus Peak, 11,500 feet altitude, distant 125 miles.

Mt. Lyell, about 10,000 feet altitude, distant 144 miles.

Mt. Hamilton, site of Lick Observatory, 4,300 feet altitude, distance 52 miles.

Santa Lucia Range, south of Monterey, 6,200 feet altitude, distant 132 miles.

Mt. Beche, north of Santa Cruz, 2,790 feet altitude, distant 54 miles.

The area actually in view from the summit, including land and ocean, is computed by Professor Davidson to be about 32,000 square miles.

BUSINESS PRECEPTS.—We find it stated that the founder of the great banking house of Rothschilds made the following rules the guide of business career culminating in magnificent success:

1. Combination of three profits. "I made the manufacturer my customer, and the one I bought of, my customer; that is, I supplied the manufacturer with raw materials and dyes, on each of which I made a profit, and took his manufactured goods, which I sold at a profit, and thus combined three profits."

2. Make a bargain at once. Be an off-handed man.

3. Never have anything to do with an unlucky man or place. "I have seen many clever men who have not shoes to their feet. I never act with them. Their advice seems very well, but fate is against them; they cannot get on themselves, how can they do good to me?"

4. Be cautious and bold. "It requires a great deal of boldness and a great deal of caution to make a great fortune, and when you get it it requires ten times as much to keep it."

BURSTING BUDS.—The young man who deposited his maiden vote on November 7, was easily recognized. He got up at 5 o'clock in the morning, shaved, fussed around until breakfast time, contradicted his father twenty times on political points, told his sister that women knew nothing about politics, went down to the polls before they were opened and filled his pocket with tickets from the several election boxes.—When he voted, the operation was performed with dignity and impressiveness.—*Boston Transcript.*

Robert Mickle, cashier of the Union Bank, of Baltimore, has probably been a bank officer for a longer time than any other man in the United States. He entered the service of that bank in 1819, and since 1830 has been its cashier.

"How much to take me to the Cathedral?" asked a tourist of a Dublin hackman. "Well," said Pat, "the meanest man I ever took there gave me three shillings."

When a Saratoga lady called her son to account because he had a golden hair on the lapel of his coat, he explained that his girl had put a head on him.

"An honest count," wisely remarks the Washington *Nation*, "is the noblest work of man."

HOW A BIRD FLIES.

The most prominent fact about a bird is a faculty in which it differs from every other creature except the bat and insects—its power of flying. For this purpose the bird's arm ends in only one long slender finger instead of a full hand. To this are attached the quills and small feathers (coverts) on the upper side, which make up the wing.—Observe how light all this is; in the first place, the bones are hollow, then the shafts of the feathers are hollow, and finally, the feathers themselves are made of the most delicate filaments, interlocking and clinging to one another with little grasping hooks of microscopic fineness. Well, how does a bird fly? It seems simple enough to describe, and yet it is a problem that the wisest in such matters have not yet worked out to everybody's satisfaction. The explanation by the Duke of Argyle, appears to me to be the best: An open wing forms a hollow on its under-side like an inverted saucer; when the wing is forced down, the upward pressure of the air caught under this concavity, lifts the bird up, much as you hoist yourself up between the parallel bars in a gymnasium. But he could never in this way get ahead, and the hardest question is still to be answered. Now, the front edge of the wing, formed of the bones and muscles of the forearm, is rigid and unyielding, while the hinder margin is merely the soft flexible ends of the feathers: so when the wing is forced down, the air under it, finding this margin yielding the easier, would rush out here, and, in so doing, would bend up the ends of the quills, pushing them forward out of the way, which, of course, would tend to shove the bird ahead. This process, quickly repeated, results in the phenomenon of flight.—*Scribner's Monthly.*

THE CORNELL OWL.—During the past week, a bittern, a duck, and four owls have been received at the laboratory.—One of the owls is kept alive. He has disposed of parts of several fish, a chipmunk, and a live snake two feet long.—The encounter with the snake was quite amusing. The owl, on spying him in a glass case, evinced a desire to form a closer acquaintance, and so the snake was placed on the floor of the laboratory. The owl with fell swoop came down upon his snakeship, and, striking its claws into his back, raised his head to its mouth and instantly smashed it. Then commenced the process of deglutition. The owl proceeded to swallow the snake's head first, and proceeded badly enough, until, after a minute's struggle, all was swallowed but two inches of the tail. At this point the owl stopped to take breath, and stood with its eyes slowly blinking, while the two inches of tail, still visible, was wiggling vigorously. At last, summoning up courage, the owl gave a last struggle and the end of the tail disappeared, still wiggling, down his throat.—*Cornell Era.*

The medical journals, last spring, published repeatedly the formula for Dr. Ferrier's new remedy for cold in the head. As the season for that distressing malady is at hand, we print the recipe, which is: Trisnitrate of bismuth 6 drachms, pulverized gum arabic 2 drachms, and hydrochlorate of morphia 2 grains. This is used as a snuff, creates no pain, and causes, says the London *Lancet*, the entire disappearance of the symptoms in a few hours.

A patriotic Servian has translated "Yankee Doodle" into his native tongue, and the air is so popular that it bids fair to become the national anthem of that struggling race. It runs as follows;

Yenghiatovitnh Dhoodalovitski camerowskitetovwnepki
Ridingelensk onovitch poncolowdosk;
Stuckorelskeno fheatherocouk inter his hatovitch
Adensk colladarovask macharonitovenski.

As to Dr. Doughty's personal appearance, much depends on Tilden's being inaugurated. Dr. Doughty lives in Covington, Ky., and sixteen years ago he vowed that he would wear the hat that he was then using until a Democratic President was sworn in. The old hat is exceedingly dilapidated, but the Doctor may make up his mind to wear it four years longer.

"Man," says Adam Smith, "is an animal that makes bargains. No other animal does this—no dog exchanges bones with another." Not unless the larger dog happens to have the smaller bone.—[Danbury *News.*

No trace has ever been found of the Bender family, who murdered nine travellers in Kansas and buried the bodies, and the theory is now advanced that they were lynched.

Doesn't a man contract a debt when he pays part of it?

PICTURE IN DOMESTIC LIFE.

A young man of agreeable manners concludes he needs a wife and home.—He looks about him and chooses from among his acquaintances the quietest and plainest girl. When his engagement is announced, wise women and girls shake their heads and say "Thy never get along well together, he is fond of company and amusement, she is the reverse." In a short time they are married. When the words are finished that make them man and wife, he, in his eagerness, instead of giving her the kiss that seals their vows, claspa her to his bosom, and from that moment his wife feels the extent of his love and resolves to keep it pure. The first year of their married life is spent, he in plying a steam ferry, the wife boarding two or three of the hands employed on the boat. Nearly every afternoon he says, "Can't you get your work done and go along over the river?" If it is possible she accompanies him, and comes home refreshed. Once a week the boat goes up the river, passing the wife's home, whenever it is possible he takes her along to see her parents. Of course the wife's cares increase as one child and then another comes to claim their love and care. We will look in on them again.

There are five children now. The husband's business is somewhat changed, so that he is away from home a great deal, from early spring until late in the fall. When he comes home, say once a week, the cry goes up in a deafening roar "Papa is coming." In the mob there are three boys and one girl—one little girl is only able to blink her eyes at papa when he looks at her.—Sometimes mamma gets the first kiss and then has to stand back, and can scarcely get a word in, the little ones are glad to see their father. In the long winter evenings he romps with the little ones, helps to make all the noise he can, sings for them, each having its favorite song. He takes his wife out horse back riding whenever she can go, takes all the family out skiff riding, and whenever he can afford them any pleasure he does not deny them. When baby cries he says, kindly, "Mamma, take the good baby, do not let it cry." He never whipped one of his children, yet they obey him, and are not by any means the worst children I have seen in my time.

I would not have it thought that these people are two cooing doves by any means. They both possess a full share of what is called temper, and have their misunderstandings—but they never use angry, passionate words towards each other.

A young Frenchman, who was much importuned by creditors, locked himself in his rooms and refused to open to any but his intimate friends, who were given a peculiar signal. The other morning he kept perfectly quiet, when his tailor knocked and called out to him, "I know you are within, M. X———. You are wrong in not letting me in. I will not stir until you open the door." X smiled, and preserved a dignified silence. Noon came, and although hungry, he did not dare to open the door, as he saw through the crack the feet of the tailor on guard. Night at length came on, and he could not stand the hunger any longer, although the tailor's feet were still to be seen. He ventured to open the door, and found a pair of shoes which had been put out to be brushed, and which he had mistaken for his tailor's feet.

In the poor house at Charlottetown, Prince Edward Island, there is a blind man named Denis Fallon who has constructed a model of a full-rigged ship. The model is admirably designed, all the spars, rigging, blocks, deck houses, and iron work are most faithfully executed in miniature. It seems not only incredible that so elaborate a work should be performed by a blind man; but the beauty of the model as well as the correctness and finish of all the details of the little craft would render it an object of much curiosity if coming from the hands of an artist with perfect sight.

Nature never fills our heart with more of her beauty than when we are recovering from sickness. Like a mother as she is, she then leans over us lovingly, and smiles her sweetest smiles, and kisses us into beautiful dreams.

Though the King of Denmark has been on the throne thirteen years he has never been crowned, the troubles between Denmark and Germany in 1863 rendering the costly ceremony inauspicious.

A tall man having rallied a friend on the shortness of his legs, the friend replied: "my legs reach the ground—what more can yours do?"

SELLING THE FARM.

There is a constant buying and selling of farms going on from year to year in our country. This restlessness on the part of the farmer and this desire to change a present location for another one hundred of miles off, is so frequently witnessed in our day that we cease to wonder at it. In the time of our forefathers, when a man was settled on a farm he commonly continued on it through life, and then left it for his son. In times gone by, the same farm was first occupied by the grandfather, and so on by the son and grandson. Then the good old homestead was reverenced and the occupancy of it was esteemed a great privilege. There was a satisfaction felt by the successor that his predecessor was his relative, cultivated the same fields, wandered by the same brooks, traversed the same hills, and ate of the fruit of the same orchard. Then there was a home feeling, home associations, and home attachments. Now the farmer looks more to his pecuniary gains, and when offered a large price for his land, hesitates not to sell. He quits his beautiful home, his well-cultivated acres, emigrates to the far West, and commences a life of hardship that he never dreamed of. It can safely be said that where one man succeeds in this undertaking many fail. If he could only sell his new farm, how gladly would he be back to the old home, now occupied by strangers, and the enclosure contains the graves of his kindred going to ruin. With the advent of spring, many will dispose of their farms and remove to a far off country, to undergo the privations and troubles incident upon establishing a home in a new country. Our advice is to remain where you are. If you are comfortably off, be contented to remain so. Do not exchange a certainty for an uncertainty, unless powerful reasons are brought to bear upon you to seek a new settlement in a distant region.—Stick to the old farm, for it has never failed you in the time of need.—*New England Homestead.*

The Rev. L. N. Phillips, pastor of the Methodist church, at Monticello, Iowa, eloped with the wife of a leading man in his congregation, but before going he wrote the following in a letter to his own wife:—"May the widow's God and Father of the fatherless abundantly bless you and your children in all things, and make you happy all through life. I want you every morning and evening to read with the children in the New Testament. Please read a verse first, and then have each one read in turn, and then all kneel and repeat the Lord's Prayer. Oh, Paulina, do keep up the family altar as long as you have a family. Do live nearer and nearer to God daily, and ask Him for His all-sufficient grace." Paulina may intend to heed her runaway husband's religious advice, but the first thing she did was to start an officer after him.

Chicago *Journal*: "There are exactly seven real gentlemen in this audience," observed a Chicago young lady to her escort, as he came back to his seat, smiling and chewing on a clove, between acts, at the opera one night last week. "How do you arrive at so definite a number?" he softly inquired, as he dropped into the seat. "By simply counting them," replied she, roguishly; "when the curtain dropped, last time, I counted all who didn't have to go out to 'see a man!'" The young man started, hemmed and seemed very anxious to have the next part of the evening's performance start in.

The Society of Friends in the United States has under its charge 20,000 Indians. The seventh annual report of their Executive Committee states that at Rossville, Kansas, the Pottawattomies have 95 farms, a boarding school, and a school farm. The Kickapoos, in Kansas, have also a boarding school and a school farm. Many of the children are advanced in arithmetic, grammar, and history. The Modocs have 200 acres inclosed, have log houses built by themselves, and are well disposed. The Friends are confident that the Indians can be both Chistianized ann civilized.

The Athens papers charge the British government with a desire to possess the Island of Candia, inhabited by Greeks, but now in possession of Turkey. They say that England is procuring a large number of signatures of Candians, asking it to assume a protectorate over the island.

You cannot convince a dog with a string of fire-crackers attached to his narrative that the American republic is a complete success.

According to the advertisement of a dealer in theatrical goods, the cost of padding a ballet girl's legs is from $3 to $15, varied by the extent of the material required.

A ROMANTIC STORY.—In the middle of Winter of 1838 a fire broke out in the female seminary at Limoges, France, and spread with such rapidity that it was feared all the inmates would perish. Suddenly there came a cry that one little girl had been left in her room. As the excited spectators were beginning to pray for the unfortunate child a tall girl, with dishevelled blonde hair and flowing night gown, ran through the crowd, and with a shriek "I'll save her!" that rose above the sound of cracking timbers and falling masonry, dashed into the doorway. A loud hurrah, that was prolonged to the echo only to be repeated again, attracted the attention of the devotees, and the pale-faced girl was seen hurrying through the flames with the terrified child. A few days thereafter King Louis Philippe sent the heroine a gold medal for her bravery, and a captain in the French army, who had witnessed the girl's pluck, begged an introduction. The captain is now President of France, and the brave girl Mme. McMahon.—Jefferson City *Journal.*

A gentleman made application for a school in Maine, and presented himself to the Board for examination as to his qualifications. Arithmetical questions were proposed; the teacher stumbled and halted, but finally made out to cipher out the answers. But on geography, he was profoundly stupid. Said the committeeman, "Can you locate Boston?" He answered, "I know all about it, probably just as well as you do; have heard of the place several times, but can't somehow or other, seem to locate it." With a view to helping him out, the committeeman said, "It is the capital of some State, is it not?" "Yes, I believe it is." "What State?" "Well, I know, probably as well as you do, what State Boston is the capital of, but you see I haven't got the flow of language to express it!"!—*New England Journal of Education.*

An old pioneer, who believed that "what was to be would be," lived in a region infested by Indians. He always took his gun with him; and once, finding that some of his family had borrowed it, he would not go without it. His friends rallied him, saying that there was no danger of the Indians, as anyhow he would not die till his time came. "Yes," said old Leatherstocking; "but suppose I was to meet an Indian, and his time was come, it wouldn't do not to have my gun."

Jane Grey Swisshelm writes from Leipzig; "The double-floors, which are universal here, oughi to be so with us, for the space between is filled with ashes, so with thick partition walls, it is next to impossible to burn house down. I am told they have no fire-engines in Germany, and do not fight fire with water, but with ashes, clay, sand, old mats and axes. There has not been a fire alarm in Leipzig since we came to it, which was the 27th of last April."

ENGLISH NUTS.—We in America, who eat only dried nuts, cannot imagine how delicious are the almonds, filberts, and English walnuts when they are fresh.—The consumption of them is immense at the table of the aristocrat in his castle, in the cozy restaurants of clubs and hotels, in the modest lodging of the bachelor, in the cottage of the peasant, and in the crowded city, where they are cracked and munched by the laborer at the street corners.

"The times are hard, my dear," said a man to his better half, "and I find it difficult to keep my nose above water." "You could easily keep your nose above water," returned the lady, "if you did not keep it so often above brandy."

Every once in a while we meet a citizen who boasts that he is a self-made man, and we cannot help thinking how much better job it would have been if he had let the contract to a more thorough and practical mechanic.

We can't understand why it is that a married man can't go into a store to buy a new rolling-pin without blushing to the tips of his ears, if anybody happens to giggle when he prefers his request.—*Burlington Hawk-Eye.*

A special bureau is to be established at Paris where wines may be analyzed at the desire of any person who doubts the honesty of his wine merchant.

A little milk added to the water for washing dishes is said to be far better than soap.

Can you spell donkey with one letter?" asked a silly young man of a bright girl. She answered "u."

Words of a dying cannibal: "Write me down as one who loved his fellow men."

A Mustard plaster is a warm personal friend.

THE CHRONICLE.

Saturday, Dec. 16, 1876.

County Official Press.

It is reported in the East that Tilden disapproves of the violent measures proposed by Randall and other hot heads of the Democratic persuasion, including the impeachment proposition, and counsels moderation. He, also, it is said, would disdain to be elected President by the vote of an Elector who received a minority vote as in Cronin's case.

Congress will probably adjourn today until the second Monday in January. It is to be hoped the Democratic members will become better humored after they have been surfeited with Holiday turkeys and cranberry sauce, and return to their posts prepared to legislate more for the benefit of the country, and less for party.

Senator Sherman has presented a petition from General Joseph E. Johnston, asking the removal of his political disabilities. Better let up a little; too many of his comrades have been granted that boon. It would have been better for the country had they been kept on the anxious seat a few years longer.

Senator Merriman has introduced a bill which provides that the Secretary of State, or in case of his death, the Secretary of the Treasury, shall succeed to the Presidency in the event of the resignation or death of both President and Vice President.

The great four-mile race at San Francisco on Saturday last was won by Mollie McCarthy in two straight heats.—Time, 7:38¼—7:52¼. The winner is a California mare, owned by Theodore Winters.

The President will call a special session of the Senate, to begin on the 4th or 5th of March to confirm President Hayes' Cabinet and other appointments he may make.

A wagon load of glycerine exploded at Petrolia, Pennsylvania, on Monday last, killing Daniel Smith and — Humphreys. About six hundred pounds exploded.

Joshua T. Bailey, formerly Collector of Internal Revenue in New York city, who absconded as a defaulter in 1866, has refunded the entire amount unaccounted for and received a full pardon.

John Diver, Constable of Campo Seco township, dropped dead at San Andreas on Monday last. Heart disease is supposed to be the cause.

The funeral of the unidentified dead of the Brooklyn disaster took place on Saturday last. It was a mournful day for Brooklyn.

There are rumors of fresh complications with Canada that may result in the early separation of the province of British Columbia from the Dominion.

Governor Grover and Secretary of State Chadwick have been summoned to Washington to give evidence on the Oregon matter.

Grover, of Oregon, is charged with having secured his Senatorship by bribery.

The Queen of England has issued a proclamation proroguing Parliament until February.

Farmers in the Southern part of the State are getting uneasy in regard to rain.

On Saturday last, at Woodland, W. V. Smith rode fifty miles in 2 hours, 8 minutes and 35 seconds.

The Direct and Anglo-American Cable Companies talk of a combination of interests.

It is reported that more than thirty vessels went ashore near Sandy Hook, during a late fearful gale.

The documents captured with Tweed have been sent to Washington for examination.

Sargent has been appointed Chairman of the Florida Investigating Committee, and has gone to that State.

The Colorado Legislature has elected Henry M. Teller United States Senator for six years, commencing next March.

Morrissey and others, stake holders at the East are still paying back pools, having declared all election bets off.

Trade dollars are worth 102¾ at San Francisco.

Greenbacks have gone to 93 at San Francisco.

Typhus fever has become epidemic among the Russian troops at Warsaw.

Congressman Eames has introduced a bill to reduce letter postage to two cents.

HAYES IS CONFIDENT.—Gov. Hayes is reported to have said

I have examined the situation carefully and thoroughly, and besids have solicited and obtained the opinions of the best constitutional lawyers of the country.—I am now satisfied that I have been honestly elected President of the United States, and am entitled to the office, and fully expect to be inaugurated as such.

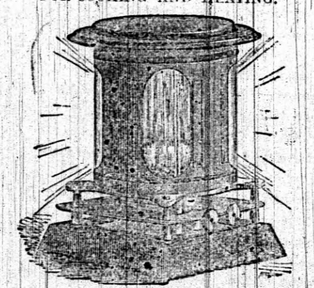

The country will gradually settle down to the conviction that Governor Hayes was honestly elected to the Presidency, and his inauguration will be accepted by the well-meaning men of all parties. The rascally attempt of Gov. Grover of Oregon, to defraud the people of their rights, in refusing to issue a certificate of election to Elector Watt, and giving it to Cronin, one of the defeated candidates, for the purpose of electing Tilden by one vote, proves the falsity of the pretensions of the Democratic leaders to "honesty and reform."

MARK THESE FACTS.
The Testimony of the Whole World.
HOLLOWAY'S PILLS.

"I had no appetite. Holloway's Pills gave me a hearty one."
"Your Pills are marvellous."
"I send for another box, and keep them in the house."
"Dr. Holloway has cured my headache that was chronic."
"I gave one of your Pills to my babe for cholera morbus. The dear little thing got well in a day."
"My nausea of a morning is now cured."
"Your box of Holloway's Ointment cured me of noises in the head. I rubbed some of your Ointment behind the ears, and the noise has left."
"Send me two boxes; I want one for a poor family."
"I enclose a dollar; your price is 25 cents, but the medicine to me is worth a dollar."
"Send me five boxes of your Pills by return mail, for Chills and Fever."
"Let me have three boxes of your Pills by return mail, for Chills and Fever."

I have over 200 such testimonials as these, but want of space compels me to conclude.

Cutaneous Diseases.

And all eruptions of the skin, this Ointment is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

HOLLOWAY'S PILLS
Invariably cure the following diseases.

Disorder of the Kidneys.

In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief when all other means have failed.

For Stomachs out of Order

No medicine will so effectually improve the tone of the stomach as these Pills, they remove all acidity occasioned either by intemperance or improper diet. They reach the liver and reduce it to a healthy action; likewise wonderfully efficacious in cases of spasms—in fact they never fail in curing all disorders of the liver and stomach.

HOLLOWAY'S PILLS are the best known in the world for the following diseases: Ague, Asthma, Bilious Complaints, Blotches on the Skin, Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, Liver Complaints, Lumbago, Piles, Rheumatism, Retention of urine, Scrofula or King's Evil, Sore Throats, Stone and Gravel, Tic Douloureux, Tumors, Ulcers, Worms of all kinds, Weakness from any cause, etc.

IMPORTANT CAUTION.

None are genuine unless the signature of J. HAYDOCK, as agent for the United States, surrounds each box of Pills, and Ointment. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

***Sold at the manufactory of Professor HOLLOWAY & Co., New York, and by all respectable druggists and dealers in medicine throughout the civilized world, in boxes at 25 cents, 62 cents and $1, each.

☞ There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

Office, 112 Liberty Street, New York.

SOCIAL HOP.

Articles for the Tree may be sent to any of the Committee.

LEGAL.

Applications for Patents to Mining Claims.

UNITED STATES LAND OFFICE,
Sacramento, Cal., Nov. 14, 1876.

Applications No.'s 812 to 823 inclusive.

NOTICE IS HEREBY GIVEN THAT LEWIS CHAMBERS, whose Post Office is Silver Mountain, Alpine county, California, has this day made application for Patent for the following described veins, or lodes of quartz, bearing gold and silver, together with surface ground 200 feet in width, with each of said claims; also a mill-site non-contiguous—all of said veins or lodes constituting the Imperial Mines and Mill-site situated in Monitor Mining District, Alpine county, California, and described in the plat and field notes on file in this office as follows, being the exterior boundaries of each of said claims, viz:

THE TRIUMPH LODE.

Beginning at a post marked c in mound of earth at north end of lode line of Lode No. 2, thence s 65° e 1.52 chains set post in mound of earth and stone marked c on steep hill side,

Thence s 25° w 15.15 chains set post in mound of earth marked c

Thence n 65° w 1.52 chains to post at south end of lode line marked c:

3.04 chains set post in earth mound marked c: Thence n 25° e 15.15 chains set post in mound of earth marked c: on north side of Monitor creek,

Thence s 65° e. 1.52 chains to place of beginning containing 4.59 acres, and embracing 1,000 linear feet of said lode and designated as Lot No. 41 and Lot 52 A, in T 9 N Ranges 20 and 21 E M. D. M.

LODE C.

Beginning at a post marked cc1 in mound of earth at north end of Lode Line and touching a post marked M. M. 37 at south end of lode line of the Merrimack claims thence s 60° e 1.53 chains set post marked cc on east side of road at s e corner of the Merrimack claim. Thence n 35° 30' w 22.87 chains set post marked cc in mound of earth. Thence n 54° 30' 1.50 chains to post cc at south end of lode line, 3.04 chains set post marked cc in mound of earth. Thence n 35° 30' e 22.57 chains set post marked cc on the west side of the post at s w corner of the Merrimack claims. Thence s 60° e to place of beginning, containing 6.81 acres and designated as Lot No. 49 A in T. 9 N R 21 E, embracing 1500 linear feet of the vein or lode.

CONNECTING LINE.

From boulder on Lode Line. Croppings on lode line of Lode No. 3 is 27° w 4.10 chains from north end of same bears n 25° w 2.12 chains distant.

LODE E.

Beginning at post marked C E 1 in mound of earth at north end of Lode Line from which the s e corner post of the Winchester claim No. 5 marked C 5 W 40 bears s 89° e 19 links distant.

Thence s 89° e 9.19 chains s e corner Winchester mine No. 5 Post C. 5. W. 40 in earth mound 1.58 chains set post marked C E in earth and stone mound. Thence s 13° 15' w 14.70 chains set post marked C E in mound of stone.

Thence n 76° 45' w 1.52 chains post CE2 in mound of stone at south end of Lode Line 3.04 chains set post marked C E in mound of earth and stone. Thence n 13° 15' e 15.60 chains set post marked C E in mound of earth. Thence s 40° e 6.25 chains post set in earth mound C. 5. W. 40 south end of lode of Winchester mine No. 5 1.58 chains to place of beginning containing 1.59 acres, and designated as Lot No. 48 A in T 9 N R 21 E, and embracing 1000 linear feet of the vein or lode.

CONNECTING LINE.

From croppings on lode line a boulder s 35° 30' w 9.20 chains from north end of lode line of "Lode C" bears n 54° w 9.45 chains dist.

LODE No. 2 AND MILL-SITE.

Beginning at a post marked C II in mound of earth in bottom of gulch at north end of Lode Line thence s 65° e 1.52 chains set post marked C II in mound of earth. Thence s 25° w 15.15 chains set post marked C II in mound of stone. Thence n 65° w 1.52 chains to post C in mound of stone at south end of lode line, 3.04 chains set post marked C II in mound of earth and stone. Thence n 25° e 15.15 chains set post marked C II in mound of earth. Thence s 65° e 1.52 chains to place of beginning containing 4.59 acres and embracing 1,000 linear feet of said lode and designated as Lot No. 41 and Lot 52 A, in T 9 N Ranges 20 and 21 E M. D. M.

Connecting Line with Imperial Mill-Site.

From point on lode Line s 29° w 5.32 chains from northerly end of same. Run n 39 14° w 3.10 chains to a point. Thence n 81½° w 10.15 chains iron ventilating pipe about 30 feet high at south side of Imperial tunnel, and in line of face. Thence n 65° w 6.6 chains intersect line between stakes M-1 and M-3 of mill-site.

Thence n 40° e 1.11 chains post M-1 of mill-site and designated as Lots No.'s 38 A and 51 A in T 9 N Ranges 21 and 21 E and embracing 1500 linear feet of the vein or lode.

SURVEY OF MILL-SITE.

Beginning at a post marked M-1 from which a perpendicular bluff 20 feet in depth bears n 5° e 25 lks. distant. Thence n 42° e 2.40 chains set post M-II in mound of earth from which two cottonwood trees bear s 88° w 1.72 chs distant. Thence n 83° e 6.55 chains set post marked M-III on the east bank of Carson River and at the west edge of the toll road to Silver Mountain. Thence s 25° e 2.15 chains set post marked M-IV in mound of earth at west edge of said road and 2 feet from the n e corner of blacksmith shop belonging to claimant. Thence s 41° w 1.11 chains intersect line of Imperial tunnel which bears s 81° 20' e. The face or western end of said tunnel is 20 links dist in same line 3.24 chains set post marked M V in west edge of road on east bank of Carson River. Thence s 47° w 6.83 chains set post marked M VI in mound of cobble stones on eastern shore of river and on the western edge of the road. Thence n 22° w 7.47 chains recrossing river to place of beginning containing 5 acres and designated as Lot No. 38 B in T 9 N R 20 E.

LODE 3.

Beginning at a post marked C in mound of earth and stone at north end of Lode Line from which the post at n e corner of the Winchester mine No. 2 bears n 57° w 1.35 chains dist and running thence s 57° e 0.97 chains to west line of Lode C. Thence s 25½° w 15.20 chains along west line of Lode C to post marked C III. Thence n 37° e 15.31 chains to post marked C-III in mound of earth. Thence s 57° e 1.53 chains to the place of beginning containing 2 acres.

Connecting Line.

From croppings on lode line. Run n 71° w 6.66 chains to a point; thence n 69½° w 4.93 chs to a point s 25° w 5.32 chains dist from north end of lode line of Lode No. 2 and designated as Lot No. 50 A in T 9 N R 21 E and embracing 417 12-100 linear feet of the vein or lode.

LODE 4

Beginning at a post marked C-IV in mound of earth at north end of Lode Line from which a pinyon pine hole 1 foot deep bears n 7° 30' w 2.50 chains dist. Thence west 1.52 chains set post marked C-IV in mound of earth. Hill slopes to the north. Thence s 8° e 15.15 chains set post marked C-IV in mound of stone. Thence s 84° w 1.52 chains to post C-IV south end of lode line, 3.04 chains set post marked C-IV in mound of earth. Thence n 8° e 15.15 chains set post marked C-IV in mound of earth. Thence n 84° e 1.52 chains to place of beginning containing 4.59 acres and designated as Lot No. 47 A in T 9 N R 21 E, embracing 1000 linear feet of the vein or lode.

Connecting Line.

From burnt stump on center of lode line croppings s 13° 15' w 8.6 chains from northerly end of lode line of Lode E, bears s 87½° w 9.20 chains distant.

LODE 5.

Beginning at post marked C-V in mound of earth and stone, at north end of lode line from which a lone pine tree 2½ feet in dia bears s 83° 30' e. 3.40 chains, dist tree in gulch. Thence n 81° e 1.52 chains set post marked C-V in mound of earth, on rather steep hill side, sloping about n 8° e. Thence s 6° e 15.15 chains set post marked C-V in mound of stone. Thence s 81° w 1.52 chains to post marked C-V in mound of stone at south end of lode line, 3.04 chains set post marked C-V in mound of stone.

Thence n 6° w 15.15 chains set post marked C V in mound of earth and stone. Thence n 4° e 1.52 chains to place of beginning containing 4.59 acres and designated as Lot No. 46 A in T 9 N R 21 E and embracing 1000 linear feet of the vein or lode.

Connecting Line.

From croppings on center of lode line the burnt stump, the point of original location on center of lode line of Lode No. 4 bears n 46° w 7.15 chains dist.

LODE 6.

Beginning at post marked C-VI in mound of earth and stone at north end of lode line from which a small pine tree 14 in dia standing on bluff bears n 23° w 2.30 chains dist. Thence n 84° e 1.52 chains set post marked C-VI in mound of earth and stone. Thence s 6° e 15.15 chains set post marked C-VI in mound of stone.

Thence s 84° w 1.52 chains to post E-VI at south end of lode line, 3.04 chains set post marked E-VI in mound of stone. Thence n 6° w 15.15 chains set post marked E-VI in mound of stone. Thence n 84° e 1.52 chains to place of beginning containing 4.59 acres and designated as Lot No. 45 A in T 9 N R 21 E, embracing 1000 linear feet of the vein or lode.

Connecting Line.

From croppings of ledge or ridge on center of lode line. Prominent croppings known as Notice Point on center of Lode No. 6 bears n 6° 6½' w 7.84 chains dist.

LODE 7.

Commencing at post marked C-V 7 in mound of earth and stone at north end of lode line from which a lone pine tree 3½ feet dia bears n 43° e 1.46 chains distant. Thence n 84° e 1.52 chains set post marked C-VII in mound of earth and stone. Thence s 6° e 15.15 chains set post marked C-VII in mound of stone.

Thence s 84° w 1.52 chains post C-VII at south end of lode line. 3.04 chains set post marked C-VII in mound of stone. Thence n 6° w 15.15 chains set post marked C-VII in mound of stone from which a big rock 4 feet high bears east 130 links dist.

Thence s 84° w 1.52 chains to post C-IX at south end of Lode Line. 3.04 chains set post marked C-IX in mound of stone from which a big rock 4 feet in face bears n 10 w 30 links dist.

Thence n 6° w 15.15 chains set post marked C-IX in mound of earth. Thence s 84° e 1.52 chains to place of beginning containing 4.59 acres and designated as Lot 42 A in T 9 N R 21 E, embracing 1000 linear feet of the vein or lode

Connecting Line.

From blazed pine at center of lode line. The pine at center of lode line of Lode No. 8 bears n 77½° w 7.66 chains dist.

LODE 10.

Commencing at post marked C-X at north end of lode line from which a rock 8 feet high bears s 30 links dist. A pine tree 1 ft dia bears s 76½° w 1.74 chains dist. Thence n 84° e 1.52 chains set post marked C-X in mound of earth and stone. Thence s 6° e 15.15 chains set post marked C-X in mound of stone. Thence s 84° w 1.52 chains to post marked C-X at southern end of lode line, 3.04 chains set post marked C-X in mound of stone. Thence n 6° w 15.15 chains set post marked C-X in mound of stone. Thence n 84° e 1.52 chains to place of beginning containing 1.59 acres.

Connecting Line.

From blazed pine tree at center of lode line. The point of original location of Lode No. 9 being a pine tree 1 ft dia bears s 45° w 9.85 links dist. Said claim being designated as Lot 41 A in T 9 N R 21 E and embracing 1000 linear feet of the vein or lode.

Lodes 2, 3, 4, 5, 6, 7, 8 9 and 10 were located Feby. 22d 1864 by O. F. Thornton and others under the name of the Michigan Tunnel and Mining Company.

Lode C was located May 11th 1875 by Wm. Brown.

Lode E was located by the applicant July 6th 1875.

The Triumph Lode was located by Wm. Brown, May 19, 1875.

All of said locations are of record in the Monitor Mining District, at Monitor in said county.

The applicant claims by purchase except as to Lode E, and also claims the mill-site by purchase.

Any and all persons claiming adversely the mining ground, premises, or any portion thereof, above described, and applied for, are hereby notified, that unless their adverse claims are duly filed according to law, and the regulations thereunder, within sixty days from the date of first publication hereof with the Register of the U. S. Land Office at Sacramento, Cal., they will be barred in virtue of the provisions of the Mining Acts of Congress.

n25-10w T. B. McFARLAND, Register.

DISSOLUTION OF COPARTNERSHIP.

NOTICE IS HEREBY GIVEN THAT THE copartnership of Stephenson and Stalker is this day dissolved by mutual consent.—D. Stephenson will continue the business on his own account.

Dated Monitor, October 19, 1876.

DAVID STEPHENSON,
n1-4w DANIEL STALKER.

TOLL ROAD NOTICE.

NOTICE IS HEREBY GIVEN THAT AN application will be made at the next regular meeting of the Board of Supervisors of Alpine County, that said Board of Supervisors fix rates of tolls to be charged by the Scandinavian Toll Road Company.

LEWIS CHALMERS, for self,
and SCANDINAVIAN TOLL ROAD CO. n11

Tax Payers' Attention!

NOTICE IS HEREBY GIVEN TO THE TAX PAYERS of Alpine county that the State and County Taxes for the year A. D. 1876-7 are now due, and that the laws for their collection will be strictly enforced; and for the purpose of receiving the same, and for the accommodation of tax payers, the undersigned will be at the following named places, to wit:

At Woodfords', Merrill's Store, on Monday, November 13th.

At Silver King, McCaffreys' Saloon, on Tuesday, November, 14th.

At Monitor, Post Office, on Wednesday, November 15th.

At Silver Mountain, Alpine House, on Thursday, November 16th.

At Bear Valley, Blood's House, on Friday, November 17th.

At Hope Valley, Scott's House, on Saturday, November 18th.

And at the Sheriff's Office, in Markleeville, on all week days from 9 o'clock A. M. to 5 o'clock P. M., up to January 1, 1876, on which day all unpaid taxes become delinquent, after which Five per cent. will be added, and interest at the rate of Two per cent. per month will also, be added until paid.

Silver coin will not be received in sums over Five Dollars.

The attention of delinquent tax payers of the taxes for the fiscal year A. D. 1875-76 is called to the following Sections of the Code:

3801—A statement of the amount of unpaid taxes must be filed by the Auditor with the Clerk of the Board of Supervisors, and the Board may cancel all taxes which in its opinion cannot be collected, and return the statement to the Auditor.

3802—All taxes not canceled must be entered by the Auditor on the assessment book of each succeeding year until paid.

3803—Interest at the rate of two per cent. per month must be collected on such delinquent taxes from the time they were first delinquent until paid.

Dated Markleeville, October 27th, A. D. 1876.

J. B. SCOTT, Sheriff,
o28 ex-officio Tax Collector of Alpine county.

THE
MUTUAL BENEFIT
Life Insurance Co.
OF NEWARK, NEW JERSEY.
ORGANIZED IN 1845.

ASSETS:
$28,541,473 54.

Income in 1873	$7,171,419 44
Net Surplus in 1873	3,540,140 09
Paid Cash Dividends in 1873	1,738,706 00
Paid Death Losses in 1873	1,978,227 24
Paid Cash Dividends, to members only since organization	14,702,609 13
Paid Death claims since organization	15,209,686 61
Expense of management in 1873, 8.59-100 per cent.	

The Directors have ordered that hereafter dividends be paid to all entitled thereto on payment of the second premium; thus, those insuring in 1874 will receive a dividend in 1875, and older policy holders will receive two dividends in that year.

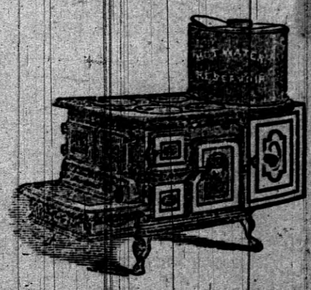

LEWIS C. GROVER, President
L. SPENCER GOBLE, Vice President.
EDWARD A. STRONG, Secretary.
BENJAMIN C. MILLER, Treasurer.

The following from the *Coast Review*, the only Insurance Journal on the Pacific Coast, is to the point:

"For faithful and economical management, the Mutual Benefit has a record equal to any Company in America. Its dividends paid to GROSS premiums received, have been LARGER than those of any other Company for the past ten years, and its average ratio of expense of management to income, since its organization, only amounts to 8 and 70-100 per cent. It is PURELY MUTUAL, dividing up the surplus annually with the policy-holders. It is a sound and reliable organization, under judicious management, and entitled to the full confidence and liberal patronage of the public."

THE CHRONICLE.

Saturday, Dec. 16 1876.

County Official Press.

LOCAL INTELLIGENCE.

HEAVY EARTHQUAKES.—About seven o'clock on the evening of Monday last the denizens of this portion of God's foot stool experienced, within a period of thirty minutes, a succession of earth quakes—seven in number. They were preceded by a rumbling noise and apparently came from the south or southeast. The first shock was quite heavy, but the third one—about fifteen minutes after the first—was the heaviest ever experienced here. Our buildings labored like a ship at sea, and people felt inclined to get out of doors. Nearly every shock was perceptibly felt by everybody in town. Soon after the earth's ague was over the sky became overcast and not a star shone forth during the remainder of the night. It is said that a slight shock was felt at 3 o'clock on Tuesday morning. It was supposed in town that the heaviest shock was sufficient to throw down the mammoth brick chimney of the Exchequer Mill, but we have heard of no damage anywhere. After Inyo's experience of earthquakes, most of our people wore a more subdued expression of countenance than usual, the succession of shocks and their severity admonishing them that perhaps the worst had not come. If a change of heart for the better can be wrought through such a visitation, a shaking up, now and then, would be beneficial.

SERIOUS ACCIDENT.—A serious accident occurred at the Exchequer mine on Wednesday last. While James Gilson was manipulating a car-load of lumber a piece of timber commenced sliding off. He stopped the car and stepped to the side of the track on the dump to push the piece back to its place, but it slid entirely off the car, striking his legs and causing him to fall backward over the dump-pile. He fell about twenty feet, striking on his head and shoulder, and then rolled down over the rock to the bottom of the dump-pile—several hundred feet. When taken up it was feared that he could not survive till he reached the mine boarding house, but he soon rallied, and was made as comfortable as possible. Dr. Luce, of Genoa, was sent for and arrived here on Wednesday afternoon. He found that Mr. Gilson had sustained serious injuries—the breaking of three ribs and his jaw. He was brought down to Ford's Hotel on Thursday morning and is now doing as well as can be expected.

THE ADVANCE.—We learn that work at the Advance mine is progressing very satisfactorily. The 300-level has been run about 100 feet, and on Monday sinking will be resumed; and sinking and drifting will be prosecuted with vigor. B. Lingley, Secretary of the Company, is now at the mine attending to Company matters.

THE FLORENCE.—We call atiention to the Florence advertisement in another column. A Florence Sewing Machine is as nice a present as a gentleman can make his sweetheart, sister, wife, or mother-in-law. Those Oil Stoves are just the thing for old bachelors and mountaineers, as well as families.

UP TO TIME.—The finishing touches will be put on the I X L Mill on Saturday next, and on Christmas Day the keys will be delivered to Manager Chalmers. The 120 days within which the mill was to be completed expire on Christmas, so Contractor Arnot is on time, with two days to spare.

OFFICERS ELECTED.—The Directors of the Washington G. & S. M. Co. met on Monday last and organized by electing the following officers: N. D. Arnot, Jr., President; Jos. McClay, Vice President; D. Dewar, Secretary; John Fearon, Treas.; James Somerville, David Perry and Erich Prahm, Finance Committee.

MEETING OF MINERS.—A meeting of the miners of Silver Mountain Mining District has been called for Tuesday evening, 26th inst., at Occidental Hall, at 8 o'clock, for consultation in regard to the best interests of the District.

U. S. PATENT.—U. S. Deputy Surveyor Reaves has surveyed the claims at Monitor belonging to the Globe G. & S. M. Co., of New York, for the purpose of procuring a United States Patent.

TAXES.—Taxpayers must bear in mind that they have only two weeks more to pay their taxes in, before costs are added.

LOVELY.—The weather continues very pleasant—warm, sunny days, and freezing cold nights.

HOLLOWAY'S PILLS AND OINTMENT.—We stand aghast at the thousands hourly hurried to a premature grave, victims of having neglected the first symptoms of disease. Whether the complaint originates in the body, or be introduced accidentally through the skin-fatal results may be warded off by a timely recourse to one or both of these medicines. 25 cents per box or pot. 189

NEW PATENTS.—Through dispatches of Dewey & Co., Patent Agents, United States Patents granted to Pacific inventors on this Coast, :

Edward J. Delaney, San Jose, Cal., combined hose-cart reel and irrigator; Richard Hielver, S. F., devices for pulling piles and posts; Henry R. Taylor, S. F., clamps for wire ropes; Edward B. Dorsey, S. F., car trucks for prismoidal tracks; Charles M. Hays, Silver City, Idaho, rulers; Levi J. Henry, S. F., envelopes; Christopher Lamb, S. F., clamps for holding hand rail wreath pieces; Ambrose J. Lattin, Alvarado, Cal., spring bed bottoms; August Mann, Big Oak Flat, Cal., mining riffles; Frederick Oppenheim, S. F., (re-issue) vehicle seats.

John P. Everetz, S. F., burglar alarms; Allen H. Putnam, Oakland, Cal., miter machines; Chales Le Lacy, S. F., explosive compositions; Richard Hillyer, S. F., pile drivers; Antone Pfeiffer, S. F., tap and faucet; John O. Rollins, Truckee, Cal., axes: Percy Beamish, S. F., (trade-mark) gentlemen's shirts and underwear; Albert Man & Co., (trade-mark) soap

It is reported in New York that a compromise is to be made with the Tweed ring. They are to return to the city of New York quite a large sum of money, and in return they are to receive immunity from prosecution; that Tweed will soon be released and Sweeney will return from Europe. This is a fine arrangement, and proves that it pays better to be a high-toned thief in that city than to remain honest.

On Tuesday last Hugh Mc Donald, a miner in the Imperial, fainted when coming up in the cage, and falling between the cage and the timbers was frightfully mangled, and finally dropped to the bottom of the shaft, a distance of 1,250 feet, where he was mashed to a jelly.

E. W. Burrows, Justice of the Peace of San Andreas, was found dead on Thursday morning under the bridge that crosses the gulch on Main street in that place. He is supposed to have fell off the bridge while going home the night previous.

The four mile race which was announced to come off at San Francisco on the 30th of December has been postponed untill the 22d of February.

The amount of specie received at New York from Europe from September 20th to December 11th amounts to $14,332,000.

Edmunds' proposed constitutional amendment providing for the count of the Electoral vote by the Supreme Court has been rejected by the Senate.

Cards are out for the wedding of George C. Gorham, Secretary of the Senate, and Miss Bassett, of Washington, for the 20th instant.

A large fire occurred at Augusta, Maine, on Thursday last. Loss, $40,000.

William Higby has been appointed Collector of Internal Revenue for the First District of California.

The Union Pacific Railroad has declared a dividend of two per cent.

A Card to the Public

For many years we have made two medicines suited to the ailments of a vast class of sufferers. Thousands of cures have been made by them, and, in fact, the word failure could not be coupled with them. But within the last two years counterfeits of our medicines have sprung up, dangerous in their close imitation of our Trade Mark. To secure the people we have placed upon each genuine box of Holloway's Ointment the fac simile of the signature of our agent, Mr. Jos. Haydock. To counterfeit is felony. We shall relentlessly pursue any one who imitates this with the utmost vigor of the law. We most earnestly beg that the great mass of the American people will aid us in our efforts to protect their health, and help us in our task of bringing these most unprincipled men to the bar of justice. Uniformly refuse to purchase Medicines purporting to be ours unless Mr. Jos. Haydock's signature is attached to each box of Pills or pot of Ointment and the end will soon be reached.

The public's obedient servants,
HOLLOWAY & Co

A VALUABLE MEDICAL TREATISE.

The edition for 1877 of the sterling Medical Annual, known as Hostetter's Almanac, is now ready, and may be obtained, free of cost, of druggists and general country dealers in all parts of the United States and British America, and indeed in every civilized portion of the Western Hemisphere. It combines, with the soundest practical advice for the preservation and restoration of health, a large amount of interesting and amusing light reading, and the calendar, astronomical calculations, chronological items, &c., are prepared with great care, and will be found entirely accurate. The issue of Hostetter's Almanic for 1877 will probably be the largest edition of a medical work ever published in any country. The proprietors, Messrs, Hostetter & Smith, Pittsburg, Pa, on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood

BIRTHS.

PAYNE.—In Diamond Valley, December 14th, a son to the wife of A. D. L. Payne.

OSBORN.—At San Francisco, December 7, the wife of Frank F. Osborn, of a daughter.

Tilden insists that he is elected, and says he will fight for his rights.

The Oldest and Best Restorer is Found in using it.

WOOD'S IMPROVED HAIR RESTORATIVE is unlike any other and has no equal. The Improved has new vegetable tonic properties; restores grey hair to a glossy, natural color; restores faded, dry, harsh and falling hair; restores, dresses, gives vigor to the hair; restores hair to prematurely bald heads; removes dandruff, humors scaly eruptions; removes irritation, itching and scaly dryness. No article produces such wonderful effects. Try it, call for Wood's Improved Hair Restorative and don't be put off with any other article. Sold by all druggists in this place and dealers everywhere. Trade supplied at manufacturers' prices by C. A. COOK & Co., Chicago, Sole Agents for the United States and Canadas and by all Wholesale Druggists.

☞The Philadelphia Gold Medal was awarded to Bradley and Rulofson for the best Photographs in the United Stafes and the Vienna Medal for the best in the world.

MEDICAL.

YOUNG MEN

Who may be suffering from the effect of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the alter of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of seminal weakness, or private disease of any kind or character which he undertakes and fails to cure. He would, therefore, say to the unfortunate sufferer who may read this notice, that you are treading on dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage; remember you are approaching the last. If you are lordering on the last, and are suffering some or all of its ill effects, remember that if you persist in procrastination, the time must come when the most skillful physician can render no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success.—Then let not despair work upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond medical skill, or before grim death hurries you to a premature grave. Full course of treatment $25 00. Send money by Post Office order or Express with full description of case Cr l:, or Address,

CENTENNIAL.

AWARD.

GRAND TRIUMPH FOR

WEBER

Pianos!

First Premium over all American and Foreign Manufacturers.

Copy of a Telegram received by Sherman & Hyde:

NEW YORK, Sept. 29th, 1876—Received the highest award for sympathetic, pure, and rich tone, combined with greatest power, as shown in the three styles—Grand, Square, and Upright Pianos—which show intelligence and solidity in their construction, a pliant and easy touch, which at the same time answers promptly to its requirements, together with excellence of workmanship.

A. WEBER.

WEBER PIANOS ARE THE BEST

Never before in the history of piano forte manufacture has an instrument risen so rapidly in popular favor.

Its intrinsic merit and decided superiority over all others has caused every musician and artist of note to adopt and recommend it.

Nilsson says, "I shall take every opportunity to recommend and praise your instruments."

Miss Kellogg says, "Your Pianos are my choice for the concert room and my own house."

Lucca says, "Your uprights are extraordinary instruments, and deserve their great popularity."

Patti says, "I have used the Pianos of every celebrated maker, but give yours the preference over all."

Strauss says, "Your Pianos astonish me. I have never seen any Pianos which equal yours."

Wehli says, "Madame Parepa called your Pianos the finest in the United States. I fully endorse that opinion. They have no rival."

SEWING MACHINES.

14,878 FLORENCE SEWING Machines were sold on the Pacific Coast from the Agency at San Francisco, previous to August 1, 1875.

If there is a Florence Machine within one thousand miles of San Francisco not working well and giving entire satisfaction, I will, if informed of it, fix it without expense to the owner, and will pay the freight both ways.

2,258 FLORENCE MACHINES were sold on the Pacific Coast in 1876—the largest number of Family Sewing Machines ever sold here in a single year, of any kind.
